Rebs bar mayor from sorties, says gov

ROUNDUP

1. REBELS BAR MAYOR FROM SORTIES, SAYS GOV
 The government has barred Mayor Antonio Trillanes IV from participating in military sorties against the Communist Party of the Philippines (CPP) in the Marikina area, according to a government spokesman. The spokesman said that the mayor's participation in such activities would be considered an act of insubordination and could lead to his removal from office. The mayor, who is a member of the House of Representatives, has been vocal in his support for the military's operations against the CPP. However, the government insists that only authorized personnel should be involved in such operations to ensure the safety of the public and the success of the military's mission.

2. BAYAN MUNA TO SUE GOV & MILITARY FOR COMMUNIST TAG
 Bayan Muna, a leftist political party, has announced that it will file a lawsuit against the government and the military for labeling the party as a communist front organization. The party claims that the government's actions are a violation of its constitutional rights and that the military's operations are a form of harassment. The lawsuit is expected to be filed in the Sandiganbayan, the anti-graft court, and will likely draw significant attention from the public and the international community.

3. NATIONWIDE INVITE SEVERAL PERSONS FOR QUESTIONING IN PHIL. OITW DEATH
 The Philippine Office of the International Tribunal on the War in the Philippines (OITW) has issued a nationwide invitation for several persons to appear for questioning regarding the death of a Filipino soldier. The OITW is part of the International Tribunal on the Law of War (ITLW) and is responsible for investigating and prosecuting war crimes. The persons being invited are alleged to be involved in the death of the soldier, who was killed during a military operation in the Marikina area. The OITW is seeking to establish the facts of the case and to hold the responsible parties accountable for their actions.

4. BOMBHO RADIO COMMUNES
 Bombho Radio, a community radio station, has announced that it will continue to broadcast its programs despite the government's attempts to shut it down. The station has been accused of broadcasting subversive content and of being a front for the CPP. However, the station's supporters claim that it is a legitimate community radio station that provides a platform for the voices of the people. The station's broadcasts are a source of information and entertainment for the community, and its continued operation is seen as a challenge to the government's censorship policies.

5. PARTY-LIST GROUP HITS FAILURE TO RELEASE ACTIVISTS
 A party-list group has criticized the government for its failure to release political activists who have been detained by the military. The group, which represents the interests of the poor and the marginalized, has called for the immediate release of the activists and for an investigation into the reasons for their detention. The group claims that the government's actions are a violation of the activists' constitutional rights and that the military's operations are a form of harassment. The group is also calling for the government to respect the rule of law and to ensure that all persons are treated equally under the law.
